### Freelancing web developer (Web agency since 04/2025)

After graduating, I began freelancing as a web developer, handling the entire process independently – from the first client meeting to launching fully developed websites. I've been doing this while running my own web agency.

- Client meetings, specifications etc.
- Planning/designing.
- Developing websites mainly with either React or WordPress
- SEO and marketing.
- Testing and publishing.
